REPORT OF THE 10TH MEETING

Date: 16 May 2018, 13:45

Place: CGB- US213

Present:

President:

Ali Amir

Secretary:

Asif Wasefi

Present group members:

Daniel Smetankin, Gauthier de Borrekens and Satish Singh

Absent group members:

None

Agenda

1. Follow-up and approval of the report of 9 May 2018
2. Progress of the project (according to planning document)
3. Necessary adjustment
4. Setting planning/assignments
5. Agreements for the following working week
6. Agreements for the following meeting: (date, president, secretary)

1. Follow-up and approval of the report of 9th May 2018

There were no remarks noted. The report is approved in the meeting session.

Remarks on the report: Project report is not yet fully completed. Asif has yet to complete the UDP part in the report. The preparations and reports are yet to be linked in the Excel file. Not all the links are working. The poster is almost in its final stage, but there are some small adjustments to come in order to be compliant with the criteria presented by the professor.

2. Progress of the project

Everyone is trying to find a way to set the wheels of the cars fixed so that there is no unwanted steering. There are a few methods to be used, Gauthier and Satish tried to glue the axis of the wheels to the body of the car. The testing is yet to be done.

After gluing the axis the cars still have a little offset steering to the right or left.

3. Necessary adjustments

The cars steering offset has to be fixed or we might have to lead the cars into a straight line with external object.

4. Setting the planning/assignments

Daniel has yet to make the poster. Asif is going to perfect the code so that the distance and duty cycle is interpreted correctly on the server. The rest has to make the project report complete and help with the presentation.

8. Agreement for the following working week

Everyone will help make the presentation for the following week

Ali will check on the Excel file and put all the preparations, reports in their correct form.

9. Agreements for the following meeting:

There would be no meeting. The projected has to be presented next week.

Date next meeting (presentation): 16/05/2018

The president concluded the meeting and invited everyone to the presentation.
